Course Information

Delivery Format: Instructor Led - Online

Course Overview

Learn to enhance your requirements development process — from planning the project, through conducting elicitation meetings and writing well-formed user requirements, to validating the requirements and managing changes to them. In this user requirements training course, you develop the skills for getting the right information from your stakeholders at the beginning and avoid wasting resources later.

About This Course

Learn to enhance your requirements development process — from planning the project, through conducting elicitation meetings and writing well-formed user requirements, to validating the requirements and managing changes to them. In this user requirements training course, you develop the skills for getting the right information from your stakeholders at the beginning and avoid wasting resources later.

Learning Outcomes

Upon successful completion of this course, participants will be able to:
