Course Overview

Ready to go beyond the basics? Our Intermediate Excel Training course is perfect for professionals who want to turn raw data into clear insights using Microsoft Excel. Whether you're managing projects, tracking budgets, or building reports, this course gives you the tools to work smarter—not harder. You'll dive into features like advanced functions, data analysis tools, PivotTables, and charting—all designed to help you confidently modify spreadsheets and workbooks to support better decision-making. With over 60% of employers saying Excel skills are in high demand, this training is a smart step in growing your career. This course builds on the foundational knowledge from Excel - Part 1 and takes your skills to the next level. It aligns with Microsoft Office Specialist exam objectives, helping you prepare for the Excel Associate (MO-200) and Excel Expert (MO-201) certifications. You'll learn how to build and modify advanced workbooks that streamline processes and enhance data insights in your organization.

About This Course

Ready to go beyond the basics? Our Intermediate Excel Training course is perfect for professionals who want to turn raw data into clear insights using Microsoft Excel. Whether you're managing projects, tracking budgets, or building reports, this course gives you the tools to work smarter—not harder. You'll dive into features like advanced functions, data analysis tools, PivotTables, and charting—all designed to help you confidently modify spreadsheets and workbooks to support better decision-making. With over 60% of employers saying Excel skills are in high demand, this training is a smart step in growing your career. This course builds on the foundational knowledge from Excel – Part 1 and takes your skills to the next level. It aligns with Microsoft Office Specialist exam objectives, helping you prepare for the Excel Associate (MO-200) and Excel Expert (MO-201) certifications. You'll learn how to build and modify advanced workbooks that streamline processes and enhance data insights in your organization.

Who Should Attend

This course is ideal for professionals who already have a basic understanding of Microsoft Excel and want to deepen their capabilities. It's a great fit for analysts, administrative staff, project leads, and anyone who regularly uses Excel to manage data, generate reports, or support business decisions.

Prerequisites & Entry Requirements

General Prerequisites:

Participants should have completed [Excel – Part 1](#) or have equivalent experience using Excel formulas, formatting, and workbook navigation.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

By the end of this intermediate Excel training course, you'll be able to work confidently within Microsoft Excel—applying logical, date/time, and text functions; managing lists of data using tables and filters; and using conditional formatting to highlight trends. You'll also learn how to create, modify, and enhance workbooks with charts, PivotTables, and PivotCharts. These real-world skills will help you transform raw data into clear, actionable information and support smarter, data-driven decision-making.
