Course Overview

The workplace can be filled with stress, pressure, excitement, and anxiety. Emotional Intelligence (EI) is how we identify and regulate our own feelings, tune into the feelings of others and understand their perspectives, and use this knowledge to guide us toward constructive interactions. Emotional Intelligence is more than your average “soft skill”. It is essential to successful teamwork, effective leadership, and overall competence. Most of all, it is a skill that takes practice and focus to master. Private classes on this topic are available. We can address your organization’s issues, time constraints, and save you money, too. Contact us to find out how. This course has been approved for 14 PDUs | 14 CDUs
