Delivery Format:	Instructor Led - Online
Certification:	ITIL 4 Specialist: Monitor, Support and Fulfil (MSF)
Related Exam:	ITIL-4-MSF

Course Overview

Ramp up your front-line service desk skills by utilizing the ITIL4 framework to manage service requests, respond to problems and monitor the health of your products and services. This 3-day course combines the key concepts, principles, values, and challenges of the Five ITIL® 4 management practices below: Service Desk Incident Management Problem Management Service Request Management Monitoring & Event Management It is intended to provide candidates with best practice guidance at both strategic and operational levels in order to maximize value from each practice. Participants will explore the key principles and practices of ITIL4 in the context of monitoring, supporting, and fulfilling IT services. They will learn how to establish effective monitoring mechanisms to ensure service performance, availability, and capacity. The course also includes guidance to measure practice capability levels and understand factors that correlate with practice success.
