

Microsoft 365 for the Web (with Teams, SharePoint, and OneDrive)

Category: Modern Workplace & M365 | **Vendor:** Microsoft Apps

Duration: 8.00 hours (1 days)

6.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

This course is an introduction to Microsoft® 365 in a cloud-based environment. Using the Microsoft 365 suite of productivity apps online, users can easily communicate and collaborate through Microsoft® Teams® messaging and meeting functionality and Outlook® email. When you create a team, the Microsoft SharePoint® team site provides a central storage location for accessing and modifying shared documents. Each user also receives individual document storage through OneDrive® for Business. Teams can provide a central hub for working with shared documents in the familiar apps—Word, PowerPoint®, and Excel®—as an alternative to installing the Microsoft 365 Desktop applications.

About This Course

This course is an introduction to Microsoft® 365 in a cloud-based environment. Using the Microsoft 365 suite of productivity apps online, users can easily communicate and collaborate through Microsoft® Teams® messaging and meeting functionality and Outlook® email. When you create a team, the Microsoft SharePoint® team site provides a central storage location for accessing and modifying shared documents. Each user also receives individual document storage through OneDrive® for Business. Teams can provide a central hub for working with shared documents in the familiar apps—Word, PowerPoint®, and Excel®—as an alternative to installing the Microsoft 365 Desktop applications.

Who Should Attend

This course is intended for business users and knowledge workers in a variety of roles and fields who have competence in a desktop-based installation of Microsoft Office, and who are now extending Microsoft 365 to a collaborative cloud-based environment.
