

SharePoint - Site Basics (Modern Experience)

Category: Modern Workplace & M365 | **Vendor:** Microsoft Apps

Duration: 8.00 hours (1 days) **6.5 CPD Hours**

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Over 200 million users rely on Microsoft 365 and SharePoint—but most don't take full advantage of its capabilities. This hands-on training gives you the skills to navigate and use SharePoint Online efficiently, helping you manage team resources, collaborate effectively, and streamline daily workflows. In this SharePoint basics training, you'll learn to manage documents, create and customize lists, search for content, and work in team sites. You'll also explore simple automation using Power Automate, all within the modern Microsoft SharePoint interface. Designed for non-technical professionals, this course equips you to confidently use SharePoint in a Microsoft 365 environment to support team collaboration, resource sharing, and task coordination.

About This Course

Over 200 million users rely on Microsoft 365 and SharePoint—but most don't take full advantage of its capabilities. This hands-on training gives you the skills to navigate and use SharePoint Online efficiently, helping you manage team resources, collaborate effectively, and streamline daily workflows. In this SharePoint basics training, you'll learn to manage documents, create and customize lists, search for content, and work in team sites. You'll also explore simple automation using Power Automate, all within the modern Microsoft SharePoint interface. Designed for non-technical professionals, this course equips you to confidently use SharePoint in a Microsoft 365 environment to support team collaboration, resource sharing, and task coordination.

Who Should Attend

This course is designed for Microsoft® Windows® and Microsoft Office users who are transitioning to a SharePoint environment, and who need to access information from and collaborate with team members within Microsoft SharePoint.

Prerequisites & Entry Requirements

General Prerequisites:

To ensure your success in this course, you should have basic end-user skills with a current version of Microsoft Windows.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

By the end of this Microsoft SharePoint training course, you'll know how to use SharePoint Online to organize team documents, track information with lists, and collaborate efficiently. You'll learn how to:

- Launch and navigate a SharePoint site
- Use SharePoint lists to manage and filter team data
- Upload, organize, and version documents in libraries
- Share resources securely and search for information
- Collaborate on shared files and gather team feedback
- Use Power Automate to create simple workflow automation

Detailed Course Outline
